

# ST. VINCENT AND THE GRENADINES

## MARITIME ADMINISTRATION

### CONDITION ASSESSMENT SCHEME (CAS)

Procedure to monitor the CAS work the RO is carrying out on behalf of  
St. Vincent and the Grenadines Administration

Resolution MEPC.94(46) – point 11.2.2

- Owners/Managers, in cooperation with RO, develop the CAS Survey Plan and submit it to RO ( copy to this Administration ) not less than 2 months prior to the planned survey.
- RO must advise in writing this Administration as soon as the meeting mentioned in **CAS Survey Requirements** took place satisfactorily.
- RO must provide this Administration, prior commencement of CAS survey, the evidence that the RO's surveyors in charge are exclusive surveyors and duly qualified.
- RO must inform this Administration, as soon as overall surveys, close-up surveys and thickness measurements are completed, about required repairs. Advice is required even if there are no required repairs.
- RO must immediately inform this Administration about its agreement about postponement of repairs beyond the due date previously assigned .
- RO must immediately inform this Administration if it deems necessary to extend close-up surveys.
- RO must immediately inform this Administration if thickness measurements are increased due to substantial corrosion or because deemed necessary for other reasons ( to be specified ).
